

AA SCREENING DETERMINATION

Of

Water Networks Programme – Bóthar Mhuire, Kingscourt, Co. Cavan

In accordance with Article 6(3) of the EU Habitats Directive (Directive 92/43/EEC) and Regulation 42(1) of the European Communities (Birds and Natural Habitats) Regulations 2011 as amended, Irish Water has undertaken Appropriate Assessment screening to assess, in view of best scientific knowledge and the conservation objectives of the European Site(s), if the project, individually or in combination with other plans or projects is likely to have a significant effect on a European Site(s).

There are no European sites located within 15 km of the project and there is no relevant hydrological connectivity or meaningful biological connectivity to European sites located within the potential zone of influence of the Project.

In accordance with Regulation 42(7) of the European Communities (Birds and Natural Habitats) Regulations 2011 as amended, Irish Water has made a determination following screening that an Appropriate Assessment is not required as the project is not directly connected with or necessary to the management of any Site(s) as a European Site(s) and as it can be concluded, on the basis of objective information, that the project, individually or in combination with other plans or projects is not likely to have a significant effect on any European Site(s).

This determination is based on small scale and short duration of the proposed works which are located within the existing road network outside of any designated European Site.
